SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549**

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2019

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-38407

RED VIOLET, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State or Other Jurisdiction of Incorporation or Organization)

82-2408531

(I.R.S. Employer Identification No.)

2650 North Military Trail, Suite 300, Boca Raton, Florida 33431

(Address of Principal Executive Offices) (Zip Code)

(561) 757-4000

(Registrant's Telephone Number, Including Area Code)

None

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, \$0.001 par value per share	RDVT	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): YES NO

As of November 4, 2019, the registrant had 11,536,140 shares of common stock outstanding.

RED VIOLET, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share data)
(unaudited)

1. Summary of significant accounting policies

(a) Basis of preparation

The accompanying unaudited condensed consolidated financial statements of Red Violet, Inc. (“red violet” or the “Company”), a Delaware corporation, have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) and applicable rules and regulations of the Securities and Exchange Commission regarding interim financial reporting. Certain information and note disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to those rules and regulations.

On March 26, 2018, Fluent, Inc. (“Fluent”) completed a spin-off of its risk management business from its digital marketing business by way of a distribution of all the shares of common stock of Fluent’s then wholly-owned subsidiary, red violet, to Fluent’s stockholders of record as of March 19, 2018, the record date, and certain warrant holders (the “Spin-off”). The distribution occurred by way of a pro rata stock distribution to such common stock and warrant holders, each of whom received one share of red violet’s common stock for every 7.5 shares of Fluent’s common stock held on the record date or to which they were entitled to under their warrants, which resulted in a distribution of a total of 10,266,613 shares of red violet common stock. Upon the Spin-off, the Company owns Fluent subsidiaries that previously operated Fluent’s risk management business. The Company accounted for the Spin-off in accordance with ASC 805-50-30-5 *Initial Measurement- Transactions Between Entities Under Common Control – Transfer Date Measurement* and therefore the net assets transferred from Fluent to red violet upon the Spin-off were reflected in red violet’s condensed consolidated financial statements at Fluent’s carrying values at the time of the Spin-off.

The accompanying unaudited condensed consolidated financial statements reflect all normal recurring adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for any future interim periods or for the full year ending December 31, 2019.

The information included in this quarterly report on Form 10-Q should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018 (“2018 Form 10-K”).

The condensed consolidated balance sheet as of December 31, 2018 included herein was derived from the audited financial statements as of that date included in the 2018 Form 10-K, but does not include all disclosures required by US GAAP.

The Company has only one operating segment, as defined by Accounting Standards Codification (“ASC”) 280, “*Segment Reporting*.”

Principles of consolidation

The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries. All significant transactions among the Company and its subsidiaries have been eliminated upon consolidation. For periods prior to the Spin-off, these financial statements were prepared on a consolidated and combined basis because certain of the entities were under common control.

Although the Spin-off was completed on March 26, 2018, the Company has reflected the Spin-off in these financial statements as if it occurred on March 31, 2018 as the Company determined that the impact is not material to the condensed consolidated financial statements.

The historical condensed consolidated and combined financial results presented prior to the Spin-off may not be indicative of the results that would have been achieved by the Company had it operated as a separate, standalone entity prior to the Spin-off. The condensed consolidated and combined financial statements presented prior to the Spin-off do not reflect any changes that may occur in the Company’s operations in connection with or as a result of the Spin-off.

(b) Recently issued accounting standards

As an emerging growth company, the Company has left open the opportunity to take advantage of the extended transition period provided to emerging growth companies in Section 13(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), however, it is the Company’s present intention to adopt any applicable new accounting standards timely.

In February 2016, Financial Accounting Standard Board (“FASB”) issued ASU No. 2016-02 (“ASU 2016-02”), “Leases (Topic 842),” which generally requires companies to recognize operating and financing lease liabilities and corresponding right-of-use assets on the balance sheet. In July 2018, FASB issued ASU No. 2018-10, “Codification Improvements to Topic 842, Leases,” and ASU No. 2018-11, “Leases (Topic 842): Targeted Improvements.” Topic 842 is effective for public entities and private entities in the first quarter of 2019 and the first quarter of 2020, respectively, on a modified retrospective basis. The Company adopted Topic 842 in the first quarter of 2019. The Company recorded a right-of-use asset and a total operating lease obligation on its condensed consolidated balance sheet of approximately \$3.0 million and \$3.4 million, respectively, upon the adoption. Refer to Note 10, Leases, for further details.

In June 2016, FASB issued ASU No. 2016-13 (“ASU 2016-13”), “Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” In November 2018, FASB issued ASU No. 2018-19, “Codification Improvements to Topic 326, Financial Instruments-Credit Losses,” which amends the scope and transition requirements of ASU 2016-13. Topic 326 requires a financial asset (or a group of financial assets) measured at amortized cost basis to be presented at the net amount expected to be collected. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions and reasonable and supportable forecasts that affect the collectability of the reported amount. Topic 326 will become effective for public companies beginning January 1, 2020, with early adoption permitted, on a modified retrospective approach. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements and related disclosures.

In August 2018, FASB issued ASU No. 2018-15 (“ASU 2018-15”), “Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract,” which requires an entity (customer) in a hosting arrangement that is a service contract to follow the guidance in Subtopic 350-40 to determine which implementation costs to capitalize as an asset related to the service contract and which costs to expense. It also requires the entity (customer) to expense the capitalized implementation costs of a hosting arrangement that is a service contract over the term of the hosting arrangement, which includes reasonably certain renewals. This guidance will be effective for the Company for annual reporting periods beginning after December 15, 2020, on a retrospective or prospective basis and early adoption is permitted. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements and related disclosures.

2. Loss per share

Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the periods. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock and is calculated using the treasury stock method for unvested shares. Common equivalent shares are excluded from the calculation in the loss periods as their effects would be anti-dilutive.

Prior to the Spin-off, the financial information of red violet represented the consolidated and combined figures of red violet and its subsidiaries. red violet only had 1,000 shares of common stock outstanding, all of which Fluent owned. On March 26, 2018, upon the Spin-off of red violet, an aggregate of 0,266,613 shares of red violet common stock were distributed to Fluent stockholders and certain warrant holders. This number of shares remained outstanding as of September 30, 2018 and is utilized to calculate loss per share for the nine months ended September 30, 2018, as shown in the table below.

(In thousands, except share data)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Numerator:				
Net loss	\$ (992)	\$ (1,252)	\$ (6,220)	\$ (4,830)
Denominator:				
Weighted average shares outstanding - Basic and diluted	10,917,673	10,266,613	10,497,036	10,266,613
Loss per share:				
Basic and diluted:	\$ (0.09)	\$ (0.12)	\$ (0.59)	\$ (0.47)

A total of 1,954,910 unvested restricted stock units (“RSUs”) have been excluded from the diluted loss per share for the three and nine months ended September 30, 2019, and 2,145,500 RSUs have been excluded for the three and nine months ended September 30, 2018, as the impact is anti-dilutive.

3. Intangible assets, net

Intangible assets other than goodwill consist of the following:

(In thousands)	Amortization Period	September 30, 2019			December 31, 2018		
		Gross Amount	Accumulated Amortization	Net	Gross Amount	Accumulated Amortization	Net
Software developed for internal use	5-10 years	\$ 27,929	\$ (4,879)	\$ 23,050	\$ 22,990	\$ (3,019)	\$ 19,971

The gross amount associated with software developed for internal use represents capitalized costs of internally-developed software, including eligible salaries and staff benefits and share-based compensation incurred by relevant employees, and other relevant costs.

Amortization expenses of \$689 and \$445 for the three months ended September 30, 2019 and 2018, respectively, and \$1,860 and \$1,235 for the nine months ended September 30, 2019 and 2018, respectively, were included in depreciation and amortization expense. As of September 30, 2019, intangible assets of \$4,018, included in the gross amounts of software developed for internal use, have not started amortization, as they are not ready for their intended use.

The Company capitalized costs of internally-developed software of \$1,708 and \$1,744 during the three months ended September 30, 2019 and 2018, respectively, and \$4,939 and \$4,813 for the nine months ended September 30, 2019 and 2018, respectively.

As of September 30, 2019, estimated amortization expense related to the Company's intangible assets for the remainder of 2019 through 2024 and thereafter are as follows:

(In thousands) Year	September 30, 2019
Remainder of 2019	\$ 714
2020	3,446
2021	3,642
2022	3,640
2023	3,565
2024 and thereafter	8,043
Total	\$ 23,050

4. Goodwill

Goodwill represents the cost in excess of the fair value of the net assets acquired in a business combination. As of September 30, 2019 and December 31, 2018, the balance of goodwill of \$5,227 was as a result of the acquisition of Interactive Data, LLC, a wholly-owned subsidiary of red violet, effective on October 2, 2014.

In accordance with ASC 350, "Intangibles - Goodwill and Other," goodwill is tested at least annually for impairment, or when events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable, by assessing qualitative factors or performing a quantitative analysis in determining whether it is more likely than not that its fair value exceeds the carrying value. The measurement date of the Company's annual goodwill impairment test is October 1.

As of September 30, 2019 and December 31, 2018, no goodwill impairment charges were recorded.

5. Revenue recognition

On January 1, 2018, the Company adopted ASC 606, "Revenue from Contracts with Customers," ("Topic 606") using the modified retrospective method applied to all contracts that were not completed contracts at the date of initial application. There was no impact on the opening accumulated deficit as of January 1, 2018 due to the adoption of Topic 606. Revenue is recognized when control of goods or services is transferred to the Company's customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. The Company's performance obligation is to provide on demand solutions to its customers by leveraging its proprietary technology and applying machine learning and advanced analytics to its massive data repository. The pricing for the customer contracts is based on usage, a monthly fee, or a combination of both.

Available within Topic 606, the Company has applied the portfolio approach practical expedient in accounting for customer revenue as one collective group, rather than individual contracts. Based on the Company's historical knowledge of the contracts contained in this portfolio and the similar nature and characteristics of the customers, the Company has concluded the financial statement effects are not materially different than if accounting for revenue on a contract by contract basis.

Revenue is recognized over a period of time since the performance obligation is delivered in a series. The Company's customers simultaneously receive and consume the benefits provided by the Company's performance as and when provided. Furthermore, the Company has elected the "right to invoice" practical expedient, available within Topic 606, as its measure of progress, since it has a right to payment from a customer in an amount that corresponds directly with the value of its performance completed-to-date. The Company's revenue arrangements do not contain significant financing components.

For the three months ended September 30, 2019 and 2018, 66% and 64% of total revenue was attributable to customers with pricing contracts, respectively, versus 34% and 36% attributable to transactional customers, respectively. For the nine months ended September 30, 2019 and 2018, 65% and 54% of total revenue was attributable to customers with pricing contracts, respectively, versus 35% and 46% attributable to transactional customers, respectively. Pricing contracts are generally annual contracts or longer, with auto renewal.

If a customer pays consideration before the Company transfers services to the customer, those amounts are classified as deferred revenue. As of September 30, 2019 and December 31, 2018, the balance of deferred revenue was \$35 and \$26, respectively, all of which is expected to be realized in the next 12 months. In relation to the deferred revenue balance as of December 31, 2018, \$0 and \$26 was recognized into revenue during the three and nine months ended September 30, 2019, respectively.

As of September 30, 2019, \$3,405 of revenue is expected to be recognized in the future for outstanding performance obligations, primarily related to pricing contracts that have a term of more than 12 months. \$522 of revenue will be recognized in the remainder of 2019, \$1,795 in 2020, \$1,085 in 2021, and \$3 in 2022. The actual timing of recognition may vary due to factors outside of the Company's control. The Company excludes variable consideration related entirely to wholly unsatisfied performance obligations and contracts and recognizes such variable consideration based upon the right to invoice the customer.

Sales commissions are incurred and recorded on an ongoing basis over the term of the customer relationship. These costs are recorded in sales and marketing expenses.

In addition, the Company elected the practical expedient to not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which the Company recognizes revenue at the amount to which it has the right to invoice for services performed.

6. Income taxes

The Company is subject to federal and state income taxes in the United States. The Company's tax provision for interim periods is determined using an estimate of its annual effective tax rate, adjusted for discrete items arising in that quarter. In each quarter, the Company updates its estimate of the annual effective tax rate, and if its estimated annual tax rate changes, the Company makes a cumulative adjustment in that quarter.

red violet is a "C" corporation, while its subsidiaries are all limited liability companies. Before the Spin-off, red violet and its subsidiaries were consolidated with Fluent for U.S. federal income tax purposes. However, for purposes of these financial statements, the income tax provisions prior to the Spin-off were prepared assuming the entities filed separate tax returns.

The Company's effective income tax rate differed from the statutory federal income tax rate of 21% for the three and nine months ended September 30, 2019 and 2018. For the three and nine months ended September 30, 2019 and 2018, the effective income tax rate was 0%, and the difference is primarily the result of the full valuation allowance applied against the Company's deferred tax assets.

The Company assesses its income tax positions and records tax benefits for all years subject to examination based upon its evaluation of the facts, circumstances and information available at the reporting date. For those tax positions where it is more-likely-than-not that a tax benefit will be sustained, the Company has recorded the largest amount of tax benefit with a greater than 50% likelihood of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where it is not more-likely-than-not that a tax benefit will be sustained, no tax benefit has been recognized in the Company's financial statements.

The Company continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings. All of the Company's income tax filings since 2015 remain open for tax examinations.

The Company does not have any unrecognized tax benefits as of September 30, 2019 and December 31, 2018.

7. Common stock and treasury stock

Common stock

As of September 30, 2019 and December 31, 2018, the number of issued shares of common stock was 1,633,662 and 10,266,613, respectively, which included shares of treasury stock of 103,417 and 0, respectively. The change in the number of issued shares of common stock was due to the following issuance:

- An aggregate of 686,049 shares of common stock were issued as a result of the vesting of RSUs, of which, 103,147 shares of common stock were withheld to pay withholding taxes upon such vesting, which are reflected in treasury stock.
- An aggregate of 681,000 shares of common stock, with an issuance price of \$11.00 per share, were issued in a registered direct offering to certain investors, pursuant to a securities purchase agreement entered into on August 28, 2019. Net proceeds of \$7,436 were received in August 2019.

Treasury stock

As of September 30, 2019, the Company held 103,147 shares of treasury stock, with a cost of \$1,255. There was no treasury stock as of December 31, 2018. This increase in treasury stock was due to shares withheld to pay withholding taxes upon the vesting of RSUs.

8. Share-based compensation

On March 22, 2018, the board of directors of the Company and Fluent, in its capacity as sole stockholder of red violet prior to the Spin-off, approved the Red Violet, Inc. 2018 Stock Incentive Plan (the "2018 Plan"), which became effective immediately prior to the Spin-off. A total of 3,000,000 shares of common stock were authorized to be issued under the 2018 Plan. The primary purpose of the 2018 Plan is to attract, retain, reward and motivate certain individuals by providing them with an opportunity to acquire or increase a proprietary interest in the Company and to incentivize them to expend maximum effort for the growth and success of the Company, so as to strengthen the mutuality of the interests between such individuals and the stockholders of the Company.

As of September 30, 2019, there were 346,791 shares of common stock reserved for issuance under the 2018 Plan.

Details of unvested RSU activity during the nine months ended September 30, 2019 were as follows:

	Number of units	Weighted average grant-date fair value
Unvested as of December 31, 2018 ⁽¹⁾	2,121,000	\$ 7.65
Granted ⁽¹⁾⁽²⁾	577,000	\$ 10.12
Vested and delivered	(582,902)	\$ 7.63
Withheld as treasury stock ⁽³⁾	(103,147)	\$ 7.75
Vested not delivered	(12,250)	\$ 6.13
Forfeited	(44,791)	\$ 7.50
Unvested as of September 30, 2019	<u>1,954,910</u>	<u>\$ 8.39</u>

- (1) On September 5, 2018 and January 16, 2019, the Company granted an aggregate of 1,487,500 RSUs (included in "Unvested as of December 31, 2018" above) and 90,000 RSUs (included in "Granted" above), respectively, subject to both time- and performance-based requirements, to certain of its employees and directors, at a grant date fair value of \$7.69 per share and \$7.25 per share, respectively, with a three-year vesting period. Such RSU grants shall not vest unless and until the Company has, for any fiscal quarter in which the RSUs are outstanding, (i) gross revenue determined in accordance with the Company's reviewed or audited financial statements in excess of \$7.0 million for such fiscal quarter, (ii) positive adjusted EBITDA, as determined based on amounts derived from the Company's reviewed or audited financial statements for such fiscal quarter, and (iii) the participant continues to provide services to the Company either as an employee, director or consultant on the last day of the quarter that the performance criteria are met (collectively, the "2018 Performance Criteria"). Provided the 2018 Performance Criteria are met, the RSUs will vest in accordance with the time-based requirements contained in the award agreement over three years. In the event of a change of control, all RSUs which have not vested on the date of such change of control shall immediately vest even if the 2018 Performance Criteria have not been met. As of June 30, 2019, the Company determined that the 2018 Performance Criteria were met and expects to issue shares underlying the RSUs in accordance with the continuing time-based vesting requirement.

As a result of meeting the 2018 Performance Criteria as of June 30, 2019, the Company recognized a total of \$1,075 and \$4,489 of share-based compensation expense relating to RSUs with 2018 Performance Criteria during the three and nine months ended September 30, 2019, respectively. Of the \$4,489 recognized, \$1,309 represented a catch-up of unamortized expense from September 5, 2018 through December 31, 2018, which was not recognized in prior periods because the Company determined at each period end that it was not probable that the 2018 Performance Criteria would be met.

- (2) On August 28, 2019, the Company granted an aggregate of 373,500 RSUs, subject to both time- and performance-based requirements, to certain employees, at a grant date fair value of \$11.42 per share, with vesting periods of either three or four years. Such RSU grants shall not vest unless and until the Company has, for any fiscal quarter in which the RSUs are outstanding, (i) gross revenue determined in accordance with the Company's reviewed or audited financial statements in excess of (a) \$10.0 million for such fiscal quarter and positive adjusted EBITDA of at least \$1.5 million, as determined based on amounts derived from the Company's reviewed or audited financial statements for such fiscal quarter for 248,500 RSUs, and (b) \$12.5 million for such fiscal quarter and positive adjusted EBITDA of at least \$2.0 million, as determined based on amounts derived from the Company's reviewed or audited financial statements for such fiscal quarter for 125,000 RSUs, and (ii) the participant continues to provide services to the Company either as an employee, director or consultant on the last day of the quarter that the performance criteria is met (collectively, the "2019 Performance Criteria"). Provided the respective 2019 Performance Criteria are met, the RSUs will vest in accordance with the time-based requirements contained in the award agreement over three or four years. In the event of a change of control, all RSUs which have not vested on the date of such change of control shall immediately vest even if the 2019 Performance Criteria have not been met. As of September 30, 2019, the Company determined that it is probable that the 2019 Performance Criteria will be met and therefore, began to record the related amortization expense on the grant date.
- (3) The increase in treasury stock was due to shares withheld to pay statutory taxes upon the vesting of RSUs during the nine months ended September 30, 2019. Refer to Note 7 for details.

As of September 30, 2019, unrecognized share-based compensation expense associated with the granted RSUs amounted to \$5,105, which is expected to be recognized over a remaining weighted average period of 2.3 years.

Share-based compensation was allocated to the following accounts in the condensed consolidated financial statements for the three and nine months ended September 30, 2019 and 2018:

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Sales and marketing expenses	\$ 114	\$ 54	\$ 290	\$ 95
General and administrative expenses	1,293	164	5,000	337
Share-based compensation expense	1,407	218	5,290	432
Capitalized in intangible assets	208	135	526	316
Total	\$ 1,615	\$ 353	\$ 5,816	\$ 748

The amounts recorded in the nine months ended September 30, 2018 included an allocation of share-based compensation related to the share-based awards granted by Fluent to Company employees or non-employees prior to the Spin-off.

9. Related party transactions

Services Agreement

On August 7, 2018, the Company entered into an executive chairman services agreement with Mr. Michael Brauser, the then Executive Chairman of the Company, pursuant to which Mr. Brauser will be providing recommendations on organizational and capital structure, future financing needs and future acquisitions or strategic transactions ("Services Agreement"), for a term of one year, automatically renewing for additional one-year periods unless either party provides written notice to the other of its intent not to renew not fewer than 30 days prior to the expiration of the then current term. Mr. Brauser continues to provide services as a consultant under the Services Agreement after his resignation as Executive Chairman and as a member of the board of directors effective on September 9, 2018. Under the Services Agreement, Mr. Brauser receives cash compensation of \$30 per month and is entitled to participate in the Company's incentive compensation plan. The Company recognized consulting service fees relating to the Services Agreement of a total of \$90 and \$270 during the three and nine months ended September 30, 2019, respectively, and \$90 during the three and nine months ended September 30, 2018. In addition, amortization of share-based compensation expense of \$343 and \$1,458 in relation to the RSUs with the 2018 Performance Criteria previously granted to Mr. Brauser was recognized during the three and nine months ended September 30, 2019, respectively.

Contribution by Fluent

Contribution by Fluent represents cash funding provided or the portion of certain expenses allocated by Fluent to red violet, on or prior to the Spin-off.

These allocated expenses are primarily corporate employee salaries and benefits of the functional groups (inclusive of executive management, accounting, administrative and information technology) and corporate administrative expenses (inclusive of legal services, accounting and finance services and other corporate and infrastructure services). Corporate employee salaries and benefits were allocated on the basis of time spent, and corporate administrative expenses were allocated on the basis of relative percentage of services utilized or benefit received. red violet recorded expenses of \$325 for the three months ended March 31, 2018 as a result of the allocation of expenses from Fluent. Upon the Spin-off, Fluent no longer allocates any expenses to red violet.

In addition, share-based compensation of \$344, relating to the share-based awards granted by Fluent prior to the Spin-off, was recorded during the three months ended March 31, 2018.

10. Leases

On January 1, 2019, the Company adopted Leases (Topic 842) using the modified retrospective method applied to all leases existing at the date of initial application. The Company elected the practical expedients to not reassess whether any existing contracts are or contain leases, not reassess the lease classification for any existing leases, and not reassess initial direct costs for any existing leases, upon the adoption of Leases (Topic 842).

The Company leases its corporate headquarters of 21,020 rentable square feet in accordance with a non-cancelable 89-month operating lease agreement as amended and effective in January 2017. The Company also leases an additional office space of 6,003 rentable square feet in accordance with a non-cancellable 90-month operating lease agreement entered into in April 2017, with an option to extend for additional 60 months. The extension option is not included in the determination of the lease term as it is not reasonably certain to be exercised.

For the three and nine months ended September 30, 2019, a summary of the Company's lease information is shown below:

(In thousands)	Three Months Ended September 30, 2019	Nine Months Ended September 30, 2019
Lease cost:		
Operating lease costs	\$ 168	\$ 504
Other information:		
Cash paid for operating leases	\$ 172	\$ 513
Right-of-use assets obtained in exchange for operating lease liabilities	\$ -	\$ 3,042
Weighted average discount rate for operating leases ⁽¹⁾	-	8.0%

- (1) The Company used 8.0%, its estimated incremental borrowing rate for similar secured assets, as the discount rate for the leases to determine the present value of the lease payments because the implicit rate in each lease is not readily determinable. The discount rate was calculated on the basis of information available as of January 1, 2019, the application date.

As of September 30, 2019, the weighted average remaining operating lease term was 5.1 years.

As of September 30, 2019, scheduled future maturities and present value of the operating lease liabilities are as follows:

(In thousands)	
Year	September 30, 2019
Remainder of 2019	\$ 174
2020	705
2021	724
2022	743
2023	765
2024 and thereafter	619
Total maturities	\$ 3,730
Present value included in condensed consolidated balance sheet:	
Current portion of operating lease liabilities	\$ 477
Noncurrent operating lease liabilities	2,588
Total operating lease liabilities	\$ 3,065
Difference between the maturities and the present value of operating lease liabilities	\$ 665

11. Commitments and contingencies

(a) Capital commitment

The Company incurred data costs of \$1,946 and \$1,447 for the three months ended September 30, 2019 and 2018, respectively, and \$5,501 and \$4,080 for the nine months ended September 30, 2019 and 2018, respectively, under certain data licensing agreements. As of September 30, 2019, material capital commitments under certain data licensing agreements were \$16,689, shown as follows:

(In thousands)	
Year	September 30, 2019
Remainder of 2019	\$ 1,916
2020	7,506
2021	5,615
2022	1,652
Total	\$ 16,689

(b) Contingencies

On June 21, 2018, the U.S. Supreme Court in *South Dakota v. Wayfair, Inc. et al*, overturned prior law which required physical presence for nexus and endorsed economic nexus as a basis for South Dakota to require online merchants to collect and remit sales taxes, even if the business does not have an in-state physical presence (the "Wayfair Decision"). As of September 30, 2019, the vast majority of states have enacted or announced their own interpretation of the Wayfair Decision. The Company collects and remits sales tax in certain states as a result of the Wayfair Decision and as a result of its continued overall compliance and review practice related to its sales and use tax obligations. In addition, the Company is currently undergoing a state sales and use tax examination.

The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and it discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. To estimate whether a loss contingency should be accrued by a charge to income, the Company evaluates, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of the loss. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated. Based upon its analysis of potential sales and use tax liabilities, the Company determined that there were no matters that required an accrual as of the balance sheet date, September 30, 2019. The Company estimates that adverse decisions, if any, related to state sales and use tax examinations could result in a possible loss up to \$413.

The Company may be involved in litigation from time to time in the ordinary course of business. The Company does not believe that the ultimate resolution of any such matters will have a material adverse effect on its business, financial condition, results of operations or cash flows. However, the results of such matters cannot be predicted with certainty and the Company cannot assure you that the ultimate resolution of any legal or administrative proceeding or dispute will not have a material adverse effect on its business, financial condition, results of operations and cash flows

12. Subsequent event

On October 28, 2019, the Company's compensation committee approved an aggregate of 340,500 RSUs to certain of its employees and directors, with a vesting period of 3 years, among which 307,500 RSUs are also subject to the 2019 Performance Criteria.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion and analysis in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q ("Form 10-Q"). This Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA"), Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended, (the "Exchange Act"), about our expectations, beliefs, or intentions regarding our business, financial condition, results of operations, strategies, or prospects. You can identify forward-looking statements by the fact that these statements do not relate strictly to historical or current matters. Rather, forward-looking statements relate to anticipated or expected events, activities, trends, or results as of the date they are made. Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties that could cause our actual results to differ materially from any future results expressed or implied by the forward-looking statements. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those contained in this Quarterly Report on Form 10-Q, as well as the disclosures made in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 filed on March 7, 2019 ("2018 Form 10-K"), and other filings we make with the Securities and Exchange Commission. We do not undertake any obligation to update forward-looking statements, except as required by law. We intend that all forward-looking statements be subject to the safe harbor provisions of PSLRA. These forward-looking statements are only predictions and reflect our views as of the date they are made with respect to future events and financial performance. In order for us to continue to develop new products, grow our existing business and expand into additional markets, we must generate and sustain sufficient operating profits and cash flow in future periods. This will require us to generate additional sales from current products and new products currently under development. We are building out our sales organization to drive current products and to introduce new products into the market place. We will incur increased compensation expenses relating to our sales and marketing, support, administrative, infrastructure, and engineering-related personnel as we increase headcount in the next 12 months.

References in this discussion and analysis to "we," "us," "our," "red violet," or the "Company," refer to Red Violet, Inc. and its consolidated subsidiaries.

Overview

We are dedicated to making the world a safer place and reducing the cost of doing business. We specialize in big data analysis, providing cloud-based, mission-critical solutions to enterprises in a variety of industries. Through our intelligent platform, CORE™, we uncover the relevance of disparate data points utilizing our analytical capabilities to provide real-time and insightful views of people, businesses, assets and their interrelationships.

Leveraging proprietary technology and applying machine learning and advanced analytic and decision-making capabilities, CORE provides compelling solutions to public and private sector organizations through intuitive, easy-to-use analytical applications. We empower clients across markets and industries to better execute all aspects of their business, from managing risk, recovering debt, identifying fraud and abuse, and ensuring legislative compliance, to identifying and acquiring customers. With a massive data repository of approximately nine petabytes of public-record, proprietary and publicly-available data, as well as self-reported consumer information and behavioral signals, we transform data into intelligence for our customers to enable better data-driven decisioning.

We presently market our solutions primarily through two brands, idiCORE™, our flagship product, and FOREWARN®. idiCORE is a next-generation, investigative solution used to address a variety of organizational challenges including due diligence, risk mitigation, identity authentication and legislative compliance, by financial services companies, insurance companies, healthcare companies, law enforcement and government, collection, law firms, retail, telecommunication companies, corporate security and investigative firms. FOREWARN is an app-based solution currently tailored for the real estate industry, providing instant knowledge prior to face-to-face engagement with a consumer, helping professionals identify and mitigate risk. As of September 30, 2019, idiCORE had over 4,780 customers and FOREWARN had over 23,850 users.

We generate substantially all of our revenue from licensing our solutions. Customers access our solutions through a hosted environment using an online interface, batch processing, API and custom integrations. We recognize revenue from licensing fees (a) on a transactional basis determined by the customer's usage, (b) via a monthly fee or (c) from a combination of both. Revenue pursuant to pricing contracts containing a monthly fee is recognized ratably over the contract period. Pricing contracts are generally annual contracts or longer, with auto renewal. Revenue from pricing contracts represented 66% and 65% of total revenue for the three and nine months ended September 30, 2019, respectively.

Our go-to-market strategy leverages (a) an inside sales team that cultivates relationships, and ultimately closes business, with their end-user markets, (b) a strategic sales team that provides a more personal, face-to-face approach for major accounts within certain industries, and (c) distributors, resellers, and strategic partners that have a significant foothold in many of the industries that we have not historically served, as well as to further penetrate those industries that we do serve. Our sales model generally begins with a free trial followed by an initial purchase on a transactional basis or minimum-committed monthly spend. As organizations derive benefits from our solutions, we are able to “land and expand” within larger organizations as additional use cases expand across departments, divisions and geographic locations and customers become increasingly reliant on our solutions in their daily workflow.

On March 26, 2018, Fluent, Inc. (“Fluent”) spun off its risk management business by way of a distribution of all of the shares of common stock of its then wholly-owned subsidiary, red violet, to its stockholders as of the record date and certain warrant holders (the “Spin-off”). Upon the Spin-off, red violet owned Fluent subsidiaries that previously operated Fluent’s risk management business, and red violet became an independent public company. For periods prior to the Spin-off, these financial statements were prepared on a consolidated and combined basis because certain of the entities were under common control.

Critical Accounting Policies and Estimates

Management’s discussion and analysis of financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to the allowance for doubtful accounts, useful lives of property and equipment and intangible assets, recoverability of the carrying amounts of goodwill and intangible assets, share-based compensation and income tax provision. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

For additional information, please refer to our 2018 Form 10-K. There have been no material changes to Critical Accounting Policies and Estimates disclosed in our 2018 Form 10-K.

Recently issued accounting standards

See Note 1(b), “*Recently issued accounting standards,*” in “Notes to Condensed Consolidated Financial Statements.”

Third Quarter Financial Results

For the three months ended September 30, 2019 as compared to the three months ended September 30, 2018:

- Total revenue increased 89% to \$8.3 million.
- Net loss was \$1.0 million (including share-based compensation expense of \$1.4 million) as compared to \$1.3 million (including share-based compensation expense of \$0.2 million).
- Loss per share was \$0.09 as compared to \$0.12.
- Adjusted gross profit increased 141% to \$5.1 million.
- Adjusted gross margin increased to 62% from 49%.
- Adjusted EBITDA was \$1.1 million as compared to a negative \$0.8 million.

Use and Reconciliation of Non-GAAP Financial Measures

Management evaluates the financial performance of our business on a variety of key indicators, including non-GAAP metrics of adjusted EBITDA, adjusted gross profit and adjusted gross margin. Adjusted EBITDA is a financial measure equal to net loss, the most directly comparable financial measure based on US GAAP, excluding interest income, net, depreciation and amortization, share-based compensation expense, litigation costs, net, transition service income, and write-off of long-lived assets and others, as noted in the tables below. We define adjusted gross profit as revenue less cost of revenue (exclusive of depreciation and amortization), and adjusted gross margin as adjusted gross profit as a percentage of revenue.

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Net loss	\$ (992)	\$ (1,252)	\$ (6,220)	\$ (4,830)
Interest income, net	(46)	(31)	(123)	(31)
Depreciation and amortization	750	508	2,049	1,437
Share-based compensation expense	1,407	218	5,290	432
Litigation costs, net	7	125	54	134
Insurance proceeds in relation to settled litigation	-	(350)	-	(350)
Transition service income	-	(56)	-	(214)
Write-off of long-lived assets and others	11	2	41	92
Adjusted EBITDA	<u>\$ 1,137</u>	<u>\$ (836)</u>	<u>\$ 1,091</u>	<u>\$ (3,330)</u>

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019	2018	2019	2018
Revenue	\$ 8,257	\$ 4,360	\$ 21,236	\$ 11,594
Cost of revenue (exclusive of depreciation and amortization)	3,122	2,233	8,843	6,334
Adjusted gross profit	<u>\$ 5,135</u>	<u>\$ 2,127</u>	<u>\$ 12,393</u>	<u>\$ 5,260</u>
Adjusted gross margin	<u>62%</u>	<u>49%</u>	<u>58%</u>	<u>45%</u>

We present adjusted EBITDA, adjusted gross profit and adjusted gross margin as supplemental measures of our operating performance because we believe they provide useful information to our investors as they eliminate the impact of certain items that we do not consider indicative of our cash operations and ongoing operating performance. In addition, we use them as an integral part of our internal reporting to measure the performance of our business, evaluate the performance of our senior management and measure the operating strength of our business.

Adjusted EBITDA, adjusted gross profit and adjusted gross margin are measures frequently used by securities analysts, investors and other interested parties in their evaluation of the operating performance of companies similar to ours and are indicators of the operational strength of our business. Adjusted EBITDA eliminates the uneven effect of considerable amounts of non-cash depreciation and amortization, share-based compensation expense and the impact of other items. Adjusted gross profit and adjusted gross margin are calculated by using cost of revenue (exclusive of depreciation and amortization).

Adjusted EBITDA, adjusted gross profit and adjusted gross margin are not intended to be performance measures that should be regarded as an alternative to, or more meaningful than, either loss before income taxes or net loss as indicators of operating performance or to cash flows from operating activities as a measure of liquidity. The way we measure adjusted EBITDA, adjusted gross profit and adjusted gross margin may not be comparable to similarly titled measures presented by other companies, and may not be identical to corresponding measures used in our various agreements.

Results of Operations

Three months ended September 30, 2019 compared to three months ended September 30, 2018

Revenue. Revenue increased \$3.9 million or 89% to \$8.3 million for the three months ended September 30, 2019 from \$4.4 million for the three months ended September 30, 2018. This increase was driven by strong growth in volume from onboarding of new customers and usage from existing customers. Our idiCORE billable customer base grew from approximately 3,430 customers as of September 30, 2018 to 4,780 customers as of September 30, 2019.

Cost of revenue (exclusive of depreciation and amortization). Cost of revenue increased \$0.9 million or 40% to \$3.1 million for the three months ended September 30, 2019 from \$2.2 million for the three months ended September 30, 2018. Our cost of revenue primarily includes data acquisition costs. Data acquisition costs consist primarily of the costs to acquire data either on a transactional basis or through flat-fee data licensing agreements, including unlimited usage agreements. We continue to enhance the breadth and depth of our data through the addition and expansion of relationships with key data suppliers, including our largest data supplier, which accounted for approximately 40% of our total data acquisition costs for the three months ended September 30, 2019 compared to approximately 44% for the three months ended September 30, 2018. Other cost of revenue items include expenses related to third-party infrastructure fees.

As the construct of our data costs is primarily a flat-fee, unlimited usage model, the cost of revenue as a percentage of revenue decreased to 38% for the three months ended September 30, 2019 from 51% for the three months ended September 30, 2018. We expect that cost of revenue as a percentage of revenue will continue to decrease over the coming years as our revenue increases. Historically, at scale, the industry business model's cost of revenue will trend between 15% and 30% as a percentage of revenue.

Sales and marketing expenses. Sales and marketing expenses increased \$0.8 million or 71% to \$1.9 million for the three months ended September 30, 2019 from \$1.1 million for the three months ended September 30, 2018. Sales and marketing expenses consist of salaries and benefits, advertising and marketing, traveling expenses, and share-based compensation expense, incurred by our sales team, and provision for bad debts. The increase in the three months ended September 30, 2019 was primarily attributable to the increase in salaries and benefits resulting from increased headcount as we continue to invest in the expansion of our sales organization.

General and administrative expenses. General and administrative expenses increased \$1.3 million or 60% to \$3.5 million for the three months ended September 30, 2019 from \$2.2 million for the three months ended September 30, 2018. For the three months ended September 30, 2019 and 2018, our general and administrative expenses consisted primarily of employee salaries and benefits of \$1.1 million and \$0.9 million, share-based compensation expense of \$1.3 million and \$0.2 million, and professional fees of \$0.6 million and \$0.7 million, respectively. The increase in share-based compensation expense was as a result of achieving certain performance-based milestones and certain new grants. See Note 8, "Share-based compensation," included in "Notes to Condensed Consolidated Financial Statements," for details.

Depreciation and amortization. Depreciation and amortization expenses increased \$0.3 million or 48% to \$0.8 million for the three months ended September 30, 2019 from \$0.5 million for the three months ended September 30, 2018. The increase in depreciation and amortization for the three months ended September 30, 2019 resulted from the amortization of software developed for internal use that became ready for its intended use after the third quarter of 2018.

Loss before income taxes. We had a loss before income taxes of \$1.0 million for the three months ended September 30, 2019 as compared to \$1.3 million for the three months ended September 30, 2018. The decrease in loss before income taxes was primarily attributable to the increase in revenue and the decrease in our cost of revenue as a percentage of revenue, which was partially offset by the increase in share-based compensation expense and employee salaries and benefits.

Income taxes. Income tax expense of \$0 was recognized for three months ended September 30, 2019 and 2018. A full valuation allowance on the deferred tax assets was recognized as of September 30, 2019 and 2018. See Note 6, "Income Taxes," included in "Notes to Condensed Consolidated Financial Statements," for details.

Net loss. A net loss of \$1.0 million was recognized for the three months ended September 30, 2019 as compared to \$1.3 million for the three months ended September 30, 2018, as a result of the foregoing.

Nine months ended September 30, 2019 compared to nine months ended September 30, 2018

Revenue. Revenue increased \$9.6 million or 83% to \$21.2 million for the nine months ended September 30, 2019 from \$11.6 million for the nine months ended September 30, 2018. This increase was driven by strong growth in volume from onboarding of new customers and usage from existing customers. Our idiCORE billable customer base grew from approximately 3,430 customers as of September 30, 2018 to 4,780 customers as of September 30, 2019.

Cost of revenue (exclusive of depreciation and amortization). Cost of revenue increased \$2.5 million or 40% to \$8.8 million for the nine months ended September 30, 2019 from \$6.3 million for the nine months ended September 30, 2018. Our cost of revenue primarily includes data acquisition costs. Data acquisition costs consist primarily of the costs to acquire data either on a transactional basis or through flat-fee data licensing agreements, including unlimited usage agreements. We continue to enhance the breadth and depth of our data through the addition and expansion of relationships with key data suppliers, including our largest data supplier, which accounted for approximately 41% of our total data acquisition costs for the nine months ended September 30, 2019 compared to approximately 47% for the nine months ended September 30, 2018. Other cost of revenue items include expenses related to third-party infrastructure fees.

As the construct of our data costs is primarily a flat-fee, unlimited usage model, the cost of revenue as a percentage of revenue decreased to 42% for the nine months ended September 30, 2019 from 55% for the nine months ended September 30, 2018. We expect that cost of revenue as a percentage of revenue will continue to decrease over the coming years as our revenue increases. Historically, at scale, the industry business model's cost of revenue will trend between 15% and 30% as a percentage of revenue.

Sales and marketing expenses. Sales and marketing expenses increased \$2.0 million or 58% to \$5.4 million for the nine months ended September 30, 2019 from \$3.4 million for the nine months ended September 30, 2018. Sales and marketing expenses consist of salaries and benefits, advertising and marketing, traveling expenses, and share-based compensation expense, incurred by our sales team, and provision for bad debts. The increase in the nine months ended September 30, 2019 was primarily attributable to the increase in salaries and benefits resulting from increased headcount as we continue to invest in the expansion of our sales organization, and the increase in share-based compensation expense and provision for bad debts.

General and administrative expenses. General and administrative expenses increased \$5.5 million or 95% to \$11.3 million for the nine months ended September 30, 2019 from \$5.8 million for the nine months ended September 30, 2018. For the nine months ended September 30, 2019 and 2018, our general and administrative expenses consisted primarily of employee salaries and benefits of \$3.1 million and \$2.4 million, share-based compensation expense of \$5.0 million (including a one-time \$1.3 million as a result of achieving certain performance-based milestones) and \$0.3 million, and professional fees of \$1.8 million and \$1.8 million, respectively. The increase in share-based compensation expense was as a result of achieving certain performance-based milestones and certain new grants. See Note 8, "Share-based compensation," included in "Notes to Condensed Consolidated Financial Statements," for details.

Depreciation and amortization. Depreciation and amortization expenses increased \$0.6 million or 43% to \$2.0 million for the nine months ended September 30, 2019 from \$1.4 million for the nine months ended September 30, 2018. The increase in depreciation and amortization for the nine months ended September 30, 2019 resulted from the amortization of software developed for internal use that became ready for its intended use after the third quarter of 2018.

Loss before income taxes. We had a loss before income taxes of \$6.2 million for the nine months ended September 30, 2019 as compared to \$4.8 million for the nine months ended September 30, 2018. The increase in loss before income taxes was primarily attributable to the recognition of share-based compensation expense of \$5.3 million (\$1.3 million of which is one-time), which was partially offset by the increase in revenue and the decrease in our cost of revenue as a percentage of revenue.

Income taxes. Income tax expense of \$0 was recognized for nine months ended September 30, 2019 and 2018. A full valuation allowance on the deferred tax assets was recognized as of September 30, 2019 and 2018. See Note 6, "Income Taxes," included in "Notes to Condensed Consolidated Financial Statements," for details.

Net loss. A net loss of \$6.2 million was recognized for the nine months ended September 30, 2019 as compared to \$4.8 million for the nine months ended September 30, 2018, as a result of the foregoing.

Effect of Inflation

The rates of inflation experienced in recent years have had no material impact on our financial statements. We attempt to recover increased costs by increasing prices for our services, to the extent permitted by contracts and competition.

Liquidity and Capital Resources

Cash flows provided by (used in) operating activities. For the nine months ended September 30, 2019, net cash provided by operating activities was \$0.4 million, primarily the result of the net loss of \$6.2 million, adjusted for certain non-cash items (consisting of share-based compensation expense, depreciation and amortization, write-off of long-lived assets, provision for bad debts and noncash lease expenses) totaling \$8.1 million, and the cash used as a result of changes in assets and liabilities of \$1.4 million, primarily the result of the increase in accounts receivable, following the increase in revenue. For the nine months ended September 30, 2018, net cash used in operating activities was \$6.8 million, primarily the result of the net loss of \$4.8 million, adjusted for certain non-cash items of an aggregate of \$2.5 million, and the cash used as a result of changes in assets and liabilities of \$4.8 million, primarily the result of the increase in accounts receivable and the decrease in accrued expenses and other current liabilities.

Cash flows used in investing activities. Net cash used in investing activities for the nine months ended September 30, 2019 and 2018 was \$4.5 million, primarily as a result of capitalized costs included in intangible assets for the corresponding periods.

Cash flows provided by financing activities. Net cash provided by financing activities for the nine months ended September 30, 2019 was \$7.4 million as a result of the registered direct offering in August 2019. Net cash provided by financing activities for the nine months ended September 30, 2018 was \$23.9 million (inclusive of the \$20.0 million cash contribution by Fluent to red violet upon the Spin-off) as a result of capital contributed by Fluent.

As of September 30, 2019, we had material commitments under certain data licensing agreements of \$16.7 million. We anticipate funding our operations using available cash and cash flow generated from operations within the next twelve months.

We reported net loss of \$1.0 million and \$1.3 million for the three months ended September 30, 2019 and 2018, respectively, and \$6.2 million and \$4.8 million for the nine months ended September 30, 2019 and 2018, respectively. As of September 30, 2019, we had a total shareholders' equity balance of \$42.1 million.

As of September 30, 2019, we had cash and cash equivalents of approximately \$13.3 million. Based on projections of growth in revenue and operating results in the next twelve months, and the available cash and cash equivalents held by us, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures for the next twelve months. Subject to revenue growth, we may have to raise capital through the issuance of additional equity and/or debt, which, if we are able to obtain, could have the effect of diluting stockholders. Any equity or debt financings, if available at all, may be on terms which are not favorable to us. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional equity or debt financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, or even continue our operations.

Off-Balance Sheet Arrangements

As of September 30, 2019, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company as defined in Rule 12b-2 of the Exchange Act, we are not required to include information required by this item.

Item 4. Controls and Procedures.**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of September 30, 2019. We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

Based on the evaluation of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act), the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2019.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting identified in connection with management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the last fiscal quarter of 2019 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures and Internal Control over Financial Reporting

In designing and evaluating the disclosure controls and procedures and internal control over financial reporting, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures and internal control over financial reporting must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is not currently a party to any legal proceeding, investigation or claim which, in the opinion of the management, is likely to have a material adverse effect on the business, financial condition, results of operations or cash flows. Legal fees associated with any legal proceedings, are expensed as incurred. We review legal proceedings and claims on an ongoing basis and follow appropriate accounting guidance, including ASC 450, when making accrual and disclosure decisions. We establish accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. To estimate whether a loss contingency should be accrued by a charge to income, we evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of the loss. We do not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated.

We may be involved in litigation from time to time in the ordinary course of business. We do not believe that the ultimate resolution of any such matters will have a material adverse effect on our business, financial condition, results of operations or cash flows. However, the results of such matters cannot be predicted with certainty and we cannot assure you that the ultimate resolution of any legal or administrative proceeding or dispute will not have a material adverse effect on our business, financial condition, results of operations and cash flows.

Item 1A. Risk Factors.

There have been no material changes to the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 filed with the Securities and Exchange Commission on March 7, 2019.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable.

Item 5. Other Information.

On November 4, 2019, Jacky Wang notified the board of directors of his intention to resign as Principal Accounting Officer on November 4, 2019. His departure is not due to any disagreement related to the Company's operations, financial statements, internal controls, auditors, policies or practices. Mr. Wang will remain with the Company as a principal accounting advisor.

On November 4, 2019, the board of directors appointed Daniel MacLachlan, the Company's current Chief Financial Officer and Principal Financial Officer, as Principal Accounting Officer. The information called for by Item 5.02(c) of Form 8-K is included in the Company's proxy statement for its [2019 Annual Meeting of Stockholders](#) and is incorporated herein by reference.

Item 6. Exhibits.

The following exhibits are filed as part of, or incorporated by reference into, this Quarterly Report on Form 10-Q.

CERTIFICATIONS

I, Derek Dubner, certify that:

- (1) I have reviewed this Quarterly Report on Form 10-Q of Red Violet, Inc.;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
